Create your own combinations

The Glori-A lamp shades are made of precious crystal glass by experienced glassmakers using traditional techniques. Their faceted appearance is achieved by pre-shaping glass in a viscous state using sixteen-armed pliers. Subsequently, a glassmaker skillfully holds several kilograms of molten glass on a pipe, rotating it and using breath to shape the glass within a wooden mold. The Pendants are available in clear, smoke gray and amber and can be combined individually in many ways.

Shining a New Light on Tradition.

The chandelier "Ray Dance" fills the space with a radiant dance, reminiscent of sunlight playing on water. Positioned around a substantial steel ring, either three or five nodes cradle six large glass forms each, resulting in a dynamic arrangement. The glass pieces, including olives, spheres, and lanterns, exude an impressive opulence, providing captivating glimpses and reflections.

Introduction

4

The "Ray Dance" glass forms are meticulously crafted by skilled glassmakers using traditional techniques, fashioned from precious crystal glass. The effort and challenges are equally impressive: A glassmaker balances up to twelve kilograms of glowing glass on their pipe, while three additional people assist in shaping the glass object into the desired form. The substantial wooden molds into which the lantern is blown are crafted from the trunks of beech trees that are over 150 years old.

New technology, same brilliance

Conceived by Stefanie Hering in 2012, the "Ray Dance" chandelier has been outfitted with new, energy-efficient LED lighting technology since 2023. Through a specially developed crystal fixture, it emanates the same brilliance as its previous halogen counterpart, casting forth the eponymous dance of light rays within a space. The chandelier harmoniously blends durable materials with future-proof technology, simultaneously placing energy efficiency and maximum longevity at the heart of our vision for lighting.

The Story

Burgeon embodies Hering Lighting's aspiration to merge sculptural design with functional elegance. Crafted from delicate bisque porcelain, the table lamp takes its inspiration from classic porcelain figurines, showcasing intricate details and exceptional craftsmanship.

Burgeon verkörpert den gestalterischen Anspruch von Hering Lighting, skulpturale Beleuchtung mit funktionaler Eleganz zu vereinen. Die Tischlampe aus filigranem Biskuit-Porzellan ist inspiriert von klassischen Porzellan-Tischfiguren, die kunstvolle Details und meisterhafte Handwerkskunst in den Fokus rücken.
